

Food Safety Training

MARCH 29, 2023

Interested in certification?

The CDC estimates that each year 48 million people get sick from a foodborne illness, 128,000 are hospitalized, and 3,000 die. The risk of foodborne illness and cross contamination becomes even greater when cooking for large groups, such as school children and families. Food safety workers should become certified in proper food handling.

To assist with this, the Office of Risk Management is offering a **ServSafe Food Manager Certification class** on **March 29, 2023**. The class will be held at the Pastoral Center in Braintree. The course is **free of charge** to parish and school staff members. The course includes the examination required for certification. **Registration has been extended just until we reach the class minimum size, so please register ASAP.** If you are interested in attending this session, please:

Register at: <https://ratorisk.com/food-safety-2023/>. Please call Madeline Ostdick at **617-866-9942** or email madeline@ratorisk.com for more information.
